beter onderwijs mogelijk maken

nu en in de toekomst

Leerling is eigenaar van zijn onderwijs

Ruimte voor talentontwikkeling

Uitdagingen in het onderwijs

Nationaal Programma Onderwijs

Ongeveer € 5,8 miljard uit het NP Onderwijs gaat naar voorschoolse educatie, basisscholen en middelbare scholen. Zij kunnen hiermee leerlingen en leraren helpen om leervertragingen en andere problemen door corona aan te pakken.

Lerarentekort

Het lerarentekort neemt toe in de grote steden.

nu.nl - 4 september 2021

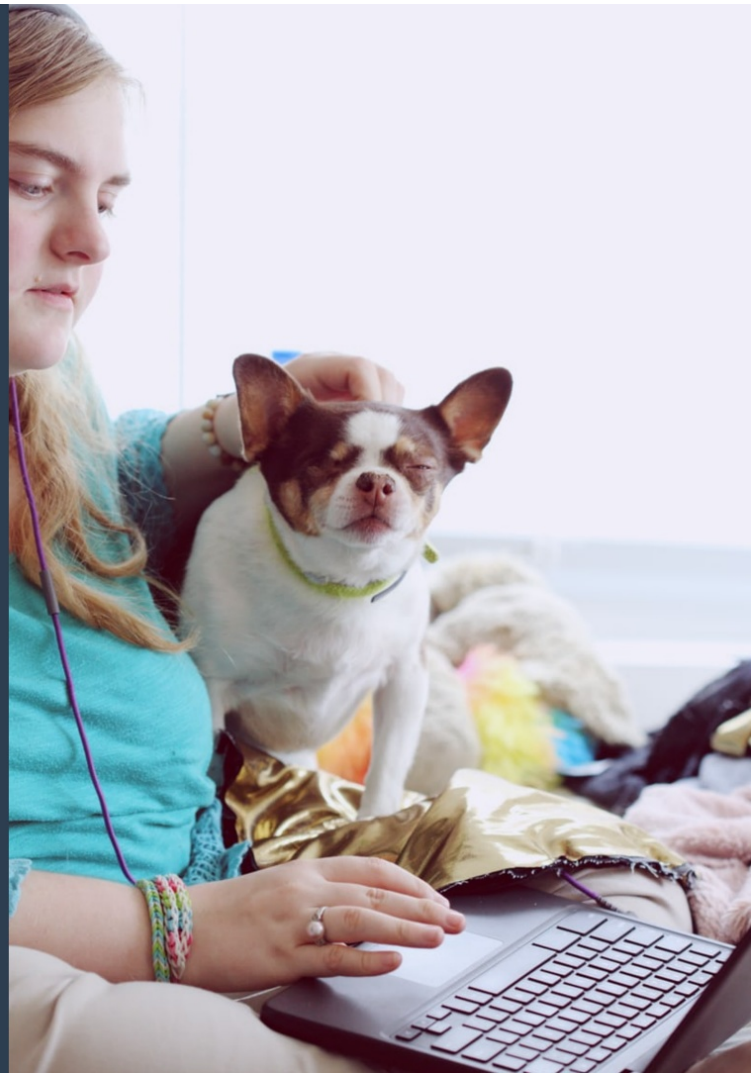
Minder studenten hebben zich afgelopen jaar opgegeven voor de PABO.

nu.nl - 6 oktober 2021

Hybride onderwijs

“Volgens docenten is hybride onderwijs het slechtste van twee werelden”, zegt AOb-woordvoerder Rob Voorwinden.

trouw.nl - 11 mei 2021

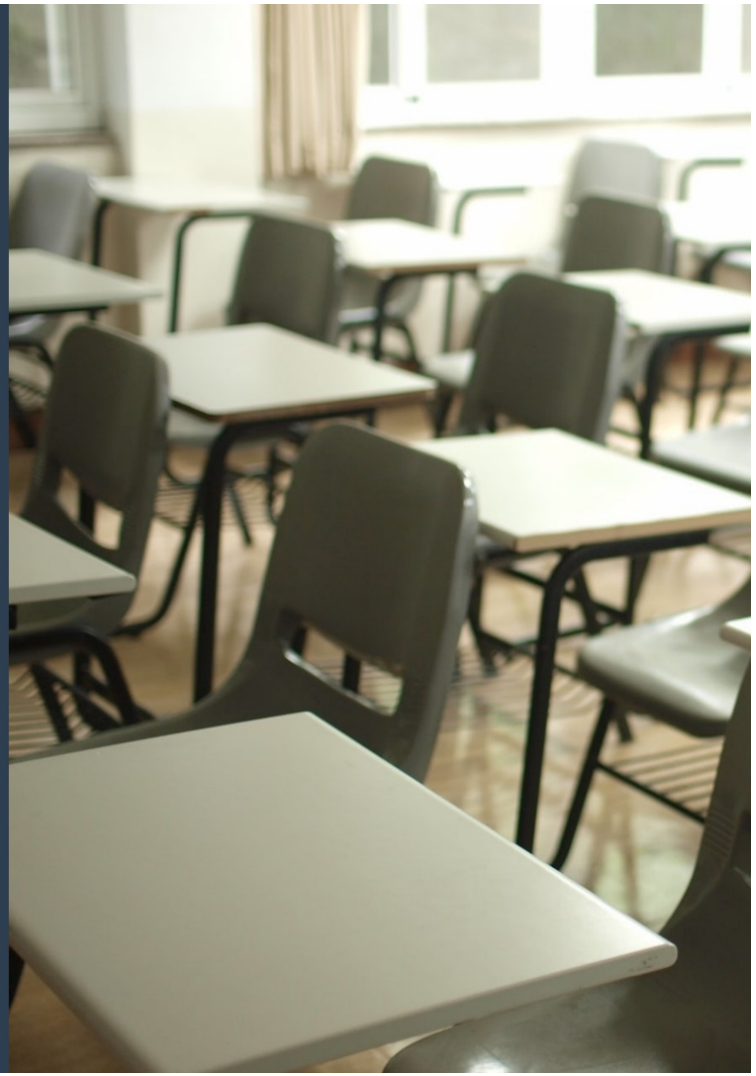


Teruglopende leerlingaantallen

Het aantal leerlingen op middelbare scholen in Limburg daalt nog steeds. Het gevolg is dat schoolgebouwen zullen sluiten en leerlingen vaker online les krijgen. 1limburg.nl - 21 september 2021

Schoolbesturen en scholen moeten niet concurreren om de leerling, maar moeten samenwerken om de krimp op te vangen.

gld.nl - 27 september 2021



Later selecteren en beter differentiëren

De onderwijsraad adviseert het moment van selectie uit te stellen tot na een brede driejarige brugperiode.

En de onderwijsraad adviseert ook flexibel onderwijs op maat te geven, dat recht doet aan verschillen tussen leerlingen.

Gepersonaliseerd onderwijs	NPO gelden	Hybride Onderwijs
